Standing Committee Meeting Summaries

March 25, 2015

Continuous Quality Improvement

Committee meeting attendees introduced themselves and reviewed the agenda. Based on feedback provided from the first meeting, a discussion was held around the purpose of the committee, anchored by the question: *How can this committee support efforts to improve or increase access to services for youth and families in Kentucky?*

Guest presenter Martha Campbell reviewed the history and function of SIAC as it related to the work of the committee. The committee discussed purpose of group to gather data requested by SIAC and other standing committees. The committee Chair requested committee to complete a Data Source Inventory for their agencies for committee to know what data systems and reports are provided by each agency. Committee members were directed to bring completed form to next meeting.

Finance & Resource

Committee meeting attendees introduced themselves and reviewed the agenda. Based on feedback provided from the first meeting, a discussion was held around the purpose of the committee, anchored by the question: *How can this committee support efforts to improve or increase access to services for youth and families in Kentucky?*

During the interim of the meetings, electronic versions of the Financial Mapping report and a System of Care Return on Investment monograph was shared with committee members. The committee immediately went into a discussion about those reports. Additionally, the committee Chair shared with the attendees that the Financial Mapping consultant has been engaged for the follow-up financial mapping process. The committee made a request to meet with the consultant by phone during the next meeting to discuss the initiative, knowledge/experience with other states that have blended funding streams across agencies/Cabinets/organizations, etc. The Chair agreed to follow up on this request.

The committee also discussed asking representatives from CHFS's Medicaid and Behavioral Health departments to possibly present on the data that has been analyzed regarding use of psychotropic medications, initiatives underway within the Cabinet to address the concerns, and the MCO projects. The Chair agreed to take this information back to SIAC staff to determine the best venue for this.

The committee also requested a presentation/update on Project SAFESPACE to be held at a Commissioner's Level SIAC meeting. The Chair agreed to move this request forward, as well.

Service Array

Committee meeting attendees introduced themselves and reviewed the agenda. Based on feedback provided from the first meeting, a discussion was held around the purpose of the committee, anchored by the question: *How can this committee support efforts to improve or increase access to services for youth and families in Kentucky?*

Standing Committee Meeting Summaries

March 25, 2015

Following this discussion, attendees established a small work group to compile list of “services” from several sources to present to larger group. The full committee will be choosing a finite number of services that we would like to map across the state.

Additionally, the committee discussed developing a survey for parents and front line staff (RIAC members) to gauge perception regarding service gaps. If pursued, the committee identified that working in collaboration with the CQI committee would be preferred.

System Structure & Governance

Committee meeting attendees introduced themselves and reviewed the agenda. Based on feedback provided from the first meeting, a discussion was held around the purpose of the committee, anchored by the question: *How can this committee support efforts to improve or increase access to services for youth and families in Kentucky?*

Following this discussion, the committee moved right into a presentation on the philosophy and the basics of the wraparound process. The presentation included and overview of the wraparound process, principles, and phases, and elements necessary for high-fidelity wraparound: strengths and needs assessments, engagement of natural supports, plan of care, goal development, crisis planning, transition planning, and more. Following the presentation, attendees discussed the content and how it related to the work of the committee and efforts toward moving RIACs to a second generation model.

Training & Technical Assistance

Committee meeting attendees introduced themselves and reviewed the agenda. Based on feedback provided from the first meeting, a discussion was held around the purpose of the committee, anchored by the question: *How can this committee support efforts to improve or increase access to services for youth and families in Kentucky?*

Following this discussion, the committee discussed recent changes to DBH training for Targeted Case Management. The committee Chair agreed to take back to DBH leadership a summary of the discussion for feedback and to reporting back to the committee what she learned.
